

"5G Technology on Health and the Environment"

— by Professor Dariusz Leszczynski —

A public lecture

Prof. Leszczynski Internationally recognised expert on health effects of wireless radiation. PhD Biochemistry, Helsinki Finland, DSc Molecular Biology, Krakow Poland, Fmr. Research Prof. @ Radiation and Nuclear Safety Authority, Finland, Member IARC Working Group 2011 classification of carcinogenicity Cellphone radiation.

- **5G technology has not been safety tested for longterm cumulative effects on health from non-thermal non-ionising radiation.**
- **Serious concerns warrant invocation of the Precautionary Principle and further scientific biological research.**
- **This is a unique opportunity for informed public debate in the academic arena.**

 **6:30pm Tuesday 19th November**
 **Auckland University Lecture Theatre B15**
(Doors open at 6pm, Below Library Building 109 corner Princes St & Alfred St, AKL City Campus)

Introduction — **Lawyer Sue Grey LLB (Hons) Bsc**
Facilitator — **Dr. Manuel Vallee PhD**
UOA — **Social Sciences Faculty**
