

PUBLIC LECTURE

5G Facts and Evidence What will be different? Will health be affected?

Professor Dariusz Leszczynski

Dr Mary Redmayne

Q&A panel: Prof Leszczynski, Dr Redmayne, Sue Grey

5.45pm-7.45pm Wednesday 27th November 2019

Victoria University of Wellington, Pipitea Campus
Rutherford House RHLT1 (entrance off Bunny St, beside the Law School)

GUEST SPEAKER: Adjunct Professor Dariusz Leszczynski, University Helsinki Finland, doctorates, in molecular biology (DSc) and biochemistry (PhD). Chief Editor of *Radiation and Health*. His almost twenty-two years' work at the Finnish Radiation and Nuclear Safety Authority, responsible for research on biological and health effects of non-ionizing radiation, make him uniquely placed to offer informed commentary on the potential adverse health effects of 5G.

Adjunct Research Fellow Mary Redmayne, PhD, Victoria University of Wellington. Independent researcher, educator and consultant on health and safety issue related to radiofrequency exposure and screen use.

Sue Grey, Sue Grey LLB(Hons), BSc (Biochemistry & Microbiology), RSHDipPHI. Self-employed lawyer, strategist and advisor on complex emerging community rights and environmental issues, based in Nelson, NZ

Doors open at 5.30
